

Appl. No. 10/749,567
Amendment dated: February 8, 2005
Reply to OA of: November 8, 2004

This listing of claims will replace all prior versions and listings of claims in the application.

Listing of Claims:

1(currently amended). A lavatory cleanser dispensing device that is height-adjustable and releases lavatory cleanser quantitatively, said lavatory cleanser dispensing device comprising:

a fixing member having a hanging portion at a top side thereof and a plurality of locating portions positioned at a bottom section thereof and in top-down arrangement, said hanging portion hanging on a toilet water tank; [[and]]

a shell having at least one chamber inside, a plurality of inlets and outlets for communication between said chamber and outside, and at least one positioning portion detachably mounted on said locating portions;

wherein said shell further comprises a circumventive frame extending outwards from a periphery of said chamber; said positioning portions are positioned on said circumventive frame and spaced apart from each other at a predetermined distance; and

wherein said fixing member is rectangular; said hanging portion is positioned at a short side of said fixing member; said locating portions are positioned respectively at two long sides of a bottom section of said fixing member and spaced apart from each other at a predetermined distance.

Claims 2-3(canceled).

4(original). The lavatory cleanser dispensing device as defined in claim 1, wherein said fixing member comprises a fracture; said hanging portion is integrally formed at said fracture, said hanging portion having a first bendable portion and a second bendable portion, said hanging portion being smooth while not in use, said
